III. POWERS OF THE REGULATORY BODIES

Table 9 - Regulatory powers

This table is aimed at understanding the types of decisions that can be taken by the regulatory body.

We have distinguished from a theoretical point of view, between:

- general policy setting powers, i.e. the power to decide on the general orientation of the rules to be followed (for instance the power to decide on the amount of quotas)
- general policy implementing powers, i.e. once the general policy has been adopted, to specify by means of general or abstract rules how this general policy will be implemented (for example to decide in general terms (not connected to a specific case) how the quotas should be applied and monitored)
- third party binding policy application powers, i.e. the power to take in a specific case a decision binding on specific operators
